[6] Education and Research (ED)
[6.22] Total number of graduates (for the last 3 years)

Academic Year	Faculty	Total Graduates
2022/2023	Energy-mechanics	318
2022/2023	Mining	197
2022/2023	Chemistry and Metallurgy	184
2022/2023	Master's program	87
Total		**786**
2023/2024	Energy-mechanics	581
2023/2024	Mining	462
2023/2024	Chemistry and Metallurgy	349
2023/2024	Agriculture	31
2023/2024	Master's program	55
Total		**1478**
2024/2025	Energy-mechanics	805
2024/2025	Mining	696
2024/2025	Chemistry and Metallurgy	450
2024/2025	Agriculture	119
2024/2025	Master's program	54
Total		**2124**

Description:

Over the past three academic years *(2022/2023 to 2024/2025)*, the total number of graduates has shown a consistent upward trend, reflecting both the expansion of academic programs and increased student enrollment.

- 2022/2023: A total of 786 graduates, with the highest numbers from Energy-mechanics *(318)* and Mining Faculties *(197)*.

- 2023/2024: Graduate numbers increased to 1,478, including a new program in Agriculture Faculty *(31)*. Major contributors remained Energy-mechanics *(581)* and Mining Faculties *(462)*.
- 2024/2025: The number peaked at 2,070 graduates. All faculties saw growth, especially Energy-mechanics *(805)* and Mining Faculties *(696)*. Agriculture grew significantly to 119 graduates.

This steady increase in graduate output demonstrates the university's growing capacity to educate and train professionals across a range of technical and applied science disciplines.
