[7.2] University budget for sustainability effort (in US Dollars)

	2023	2024	2025	Average
Budget total	$ 14,287,504.11	$ 12,175,794.20	$ 13,386,676.24	$ 13,283,324.85
Sustainability Budget	$ 5,398,814.52	$ 9,392,745.38	$ 5,354,670.50	$ 6,715,410.13
			Percentage	**50.55**

The average percentage of the university budget for sustainability is **50.55 %**.
Sustainability Budget Allocation for Navoi State University of Mining and Technologies in 2025:

Total Sustainability Budget: $5,354,670.50

- Energy Efficiency and Renewable Energy (10%): **$535,467.05**
- Waste Reduction and Recycling (5%): **$267,733.52**
- Water Conservation (5%): **$267,733.52**
- Sustainable Transportation (5%): **$267,733.53**
- Green Building Initiatives (10%): **$535,467.05**
- Training and Engagement of Academic Community (30%): **$1,606,401.15**
- Facility Maintenance for Sustainability (35%): **$1,874,134.68**

[6] Education and Research (ED)
[6.5] Total Research Funds Dedicated to Sustainability Research (in US Dollars)

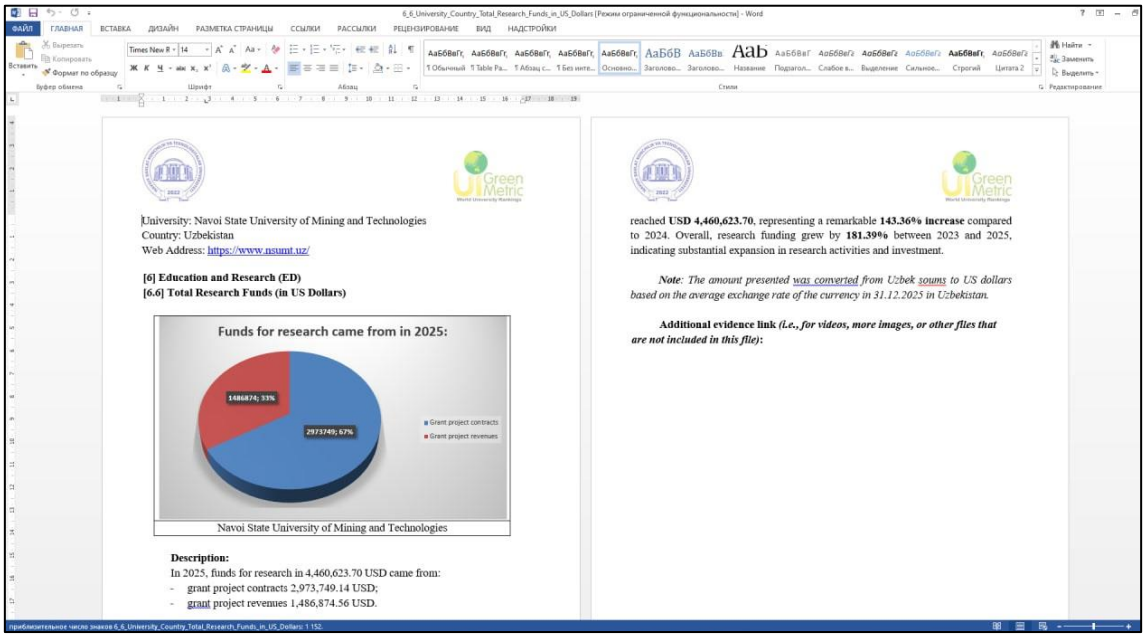

Sustainability Research Funds at Navoi State University of Mining and Technologies

Description:
Total research fund dedicated to sustainability research in 2023: **636,894.15 USD**
Total research fund dedicated to sustainability research in 2024: **1,014,935.99 USD**
Total research fund dedicated to sustainability research in 2025: **1,486,874.56 USD**

- **2024:** 1,014,935.99 US Dollars *(+59% compared to 2023)*
- **2025:** 1,486,874.56 US Dollars *(+46% compared to 2024)*

The university has demonstrated a strong commitment to sustainability research through a continuous increase in dedicated research funding. The total research fund allocated to sustainability research increased from **USD 636,894.15 in 2023** to **USD 1,014,935.99 in 2024**, reflecting a **59.36% growth rate**. In **2025**, the funding further increased to **USD 1,486,874.56**, representing a **46.50% increase** compared to 2024. Overall, sustainability research funding grew by **133.46%** between 2023 and 2025. The **average annual funding** dedicated to sustainability research during this period was **USD 1,046,234.90**, highlighting the university's ongoing investment in research that supports sustainable development and environmental responsibility.

This consistent upward trend reflects the university's strategic focus on strengthening research capacity in sustainability and promoting innovation-driven solutions for environmental, economic, and social challenges.

TOTAL RESEARCH FUNDS

Navoi State University of Mining and Technologies

In 2025, funds for research in 4,460,623.70 USD came from:

- grant project contracts 2,973,749.14 USD;
- grant project revenues 1,486,874.56 USD.

Total research fund in 2023 = 1,585,183.98 USD

Total research fund in 2024 = 1,832,911.33 USD

Total research fund in 2025 = 4,460,623.70 USD

The averaged annum of research fund during the last 3 years = 2,626,239.67 USD

The university's research funding demonstrated significant growth during 2023-2025. Total research funds increased from **USD 1,585,183.98 in 2023** to **USD 1,832,911.33 in 2024**, reflecting a growth rate of **15.63%**. In 2025, research funding reached **USD 4,460,623.70**, representing a remarkable **143.36% increase** compared to 2024. Overall, research funding grew by **181.39%** between 2023 and 2025, indicating substantial expansion in research activities and investment.

TOTAL RESEARCH FUNDS DEDICATED TO SUSTAINABILITY RESEARCH

Total research fund dedicated to sustainability research in 2023: **636,894.15 USD**

Total research fund dedicated to sustainability research in 2024: **1,014,935.99 USD**

Total research fund dedicated to sustainability research in 2025: **1,486,874.56 USD**

The averaged annum last 3 years of research fund dedicated to sustainability research: **1,046,234.90 USD**

Navoi State University of Mining and Technologies has steadily increased its allocation of research funds toward sustainability-focused projects over the last four years, demonstrating a strong commitment to advancing the UN Sustainable Development Goals.

- **2023:** 636,894.15 US Dollars
- **2024:** 1,014,935.99 US Dollars *(**+59%** compared to 2023)*
- **2025:** 1,486,874.56 US Dollars *(**+46%** compared to 2024)*

The university has demonstrated a strong commitment to sustainability research through a continuous increase in dedicated research funding. The total research fund allocated to sustainability research increased from **USD 636,894.15 in 2023** to **USD 1,014,935.99 in 2024**, reflecting a **59.36% growth rate**. In **2025**, the funding further increased to **USD 1,486,874.56**, representing a **46.50% increase** compared to 2024. Overall, sustainability research funding grew by **133.46%** between 2023 and 2025. The **average annual funding** dedicated to sustainability research during this period was **USD 1,046,234.90**, highlighting the university's ongoing investment in research that supports sustainable development and environmental responsibility.

This consistent upward trend reflects the university’s strategic focus on strengthening research capacity in sustainability and promoting innovation-driven solutions for environmental, economic, and social challenges.
